2024-2025 Webinar Series

SCIENCE EVERYWHERE November 6, 2024 3:00-4:00pm

Science Everywhere is an initiative designed specifically for PreK students that emphasizes Inquiry-Based Learning. Spearheaded by NYSED's Office of Early Learning and Office of Cultural Education, the initiative aims to cultivate a love of science and nature in young children through hands-on learning while fostering important critical thinking and problem-solving skills.

FOSTERING POSITIVE BEHAVIOR IN PREK February 5, 2025 3:00-4:00pm

Fostering Positive Behaviors in the Prekindergarten Classroom. Participants will delve deeper into the implementation of strategies used to address current challenging behaviors and further their understanding of how to build a positive learning environment.

SUPPORTING EMERGENT MULTILINGUAL LEARNERS IN PREK March 5, 2025 3:00-4:00pm

Participants will learn about the importance of cultivating a culturally and linguistically responsive learning environment for Emergent Multilingual Learners (EML), identify practices that nurture language development for EML students, and hear examples of practical applications for supporting EML students from New York State school districts.

INCLUSION IN PREK: WHY IT MATTERS AND BEST PRACTICE May 14, 2025 3:00-4:00pm

Learn why creating inclusive PreK classrooms benefits all children, explore best practices, and gain practical strategies to foster a welcoming and supportive learning environment for every child.

Field Guidance

Guidance for Supporting Positive Behaviors at Home

How do I provide support for my child socially and emotionally?

- * Establish strong and predictable family routines at home. A routine is an event that is completed on a regular basis, frequently involving a series of responses. You may want to develop a routine for daily activities such as getting ready in the morning, eating meals, or going to bed at night.
 - Morning Routine
 - Bedtime Routine
- Create family rules at home with your child

How do I help prevent tantrums from occurring throughout the day?

. Give your child choices and allow him or her to make choices throughout their day when it is appropriate. You can give your child the choice between milk or juice or have them pick out their own clothes for the day. Choices empower your child and allow for control and ownership over their day. Choices will help to avoid tantrums, build confidence, add value, teach responsibility, promote creativity, and develop problemsolving skills.

Science Everywhere!

Purpose: To develop a prekindergarten science initiative that promotes a love of science and nature for PreK children.

- inquiry-based science and aligned to the NYS Standards
- Developed and informed by multiple stakeholders
- Consists of a webpage, tip sheet, and a bird exploration to aid in implementation
- Child-centered focus tied to a child's natural curiosity
- Builds problem-solving skills and to make real-world connections

PART B DUE February 1, 2023

U.S. DEPARTMENT OF EDUCATION WASHINGTON DC 20202

State Performance Plan/ Annual Performance Report

- The Individuals with Disabilities Education Act (IDEA)
 requires each state to develop a State Performance Plan
 (SPP) and an Annual Performance Report (APR) that:
 - evaluates the state's efforts to implement the requirements and purposes of the IDEA; and
 - describes how the state will improve its implementation.
- States must report annually on their progress against the targets in their SPP/APR.
- A new SPP/APR is developed at least every six years.

School District IDEA Determinations

Title 34 of the Code of Federal Regulations §300.600 requires each state to make determinations annually about the performance of each public school district based on its annual performance relating to special education SPP indicators.

Prior Suggestions from Stakeholders to Improve Inclusion

- 1. Expand the existing preschool offerings to meet the needs of all students;
- 2. Direct additional funding toward inclusive preschool programs;
- 3. Determine Root Causes/Perform Self-Assessments;
- 4. Expand training for educators in regular early childhood settings on a variety of student learning needs;
- 5. Enhance the training provided to Committees on Preschool Special Education on LRE decision-making.

Evaluation and Transitions

SPP Indicator 11: Timely Evaluations

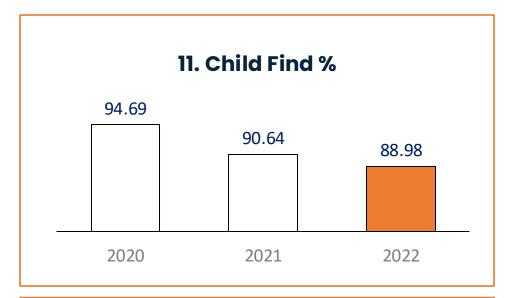

Percent of children who were evaluated within 60 days of receiving parental consent for initial evaluation.

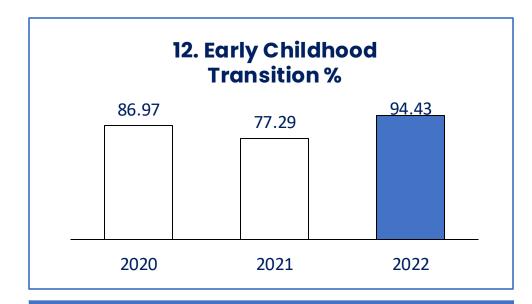

SPP Indicator 12: Early Childhood Transition

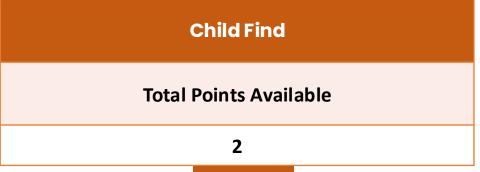

Percent of children referred by Part C prior to age 3, who are found eligible for Part B, and who have an IEP developed and implemented by their third birthdays.

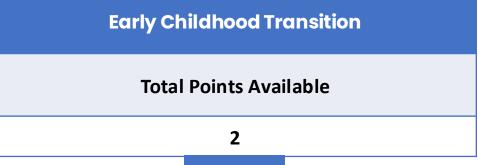

SPP Compliance Indicators – 11 & 12

VR11

VR12

Timely Evaluation Delay Reasons

Compliant Reasons

Parents withdrew referral or consent to evaluate

Student moved out of the district

Documented delays in contacting parents to schedule the evaluation

Parents cancelled the scheduled evaluation and/or selected another approved evaluator

Evaluation postponed due to parents documented request

Parents refused or repeatedly did not make the child available for the evaluation

Noncompliant Reasons

Delays in finding an approved evaluator

Evaluator delays in completing the evaluation

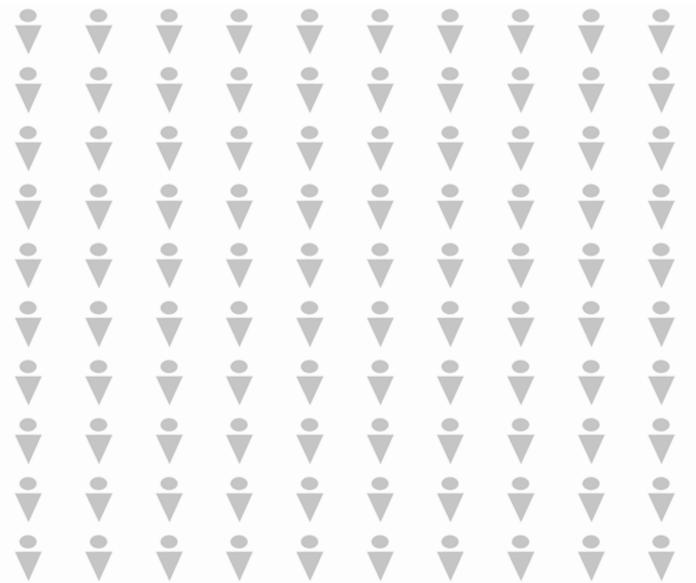

An approved multilingual evaluator was not available to provide a timely evaluation

NYS 2022 SPP 12

Early Childhood Transition

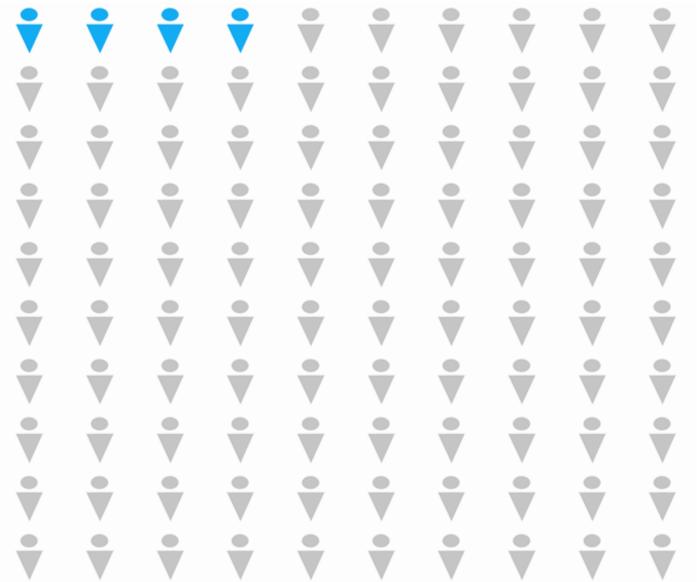

Monitoring was performed for 2,736 children who were served in Early Intervention and referred Preschool Special Education for a determination of eligibility.

NYS 2022 SPP 12 Early Childhood Transition

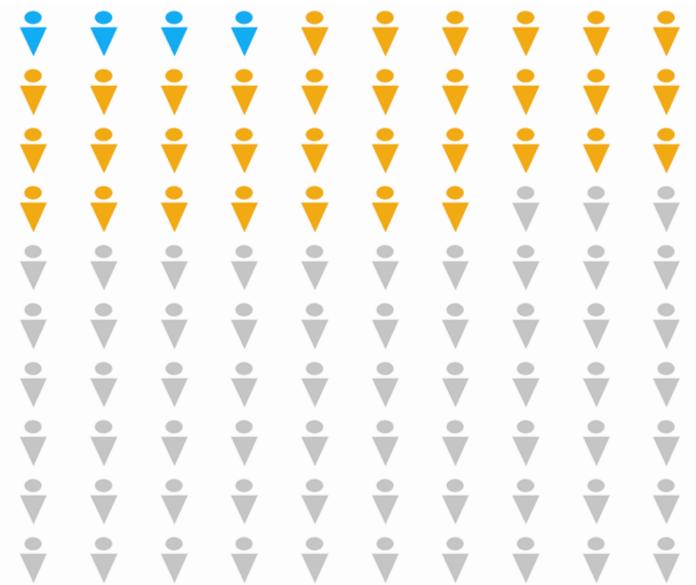

Approximately 4% of the cohort were determined not eligible for preschool special education services

NYS 2022 SPP 12 Early Childhood Transition

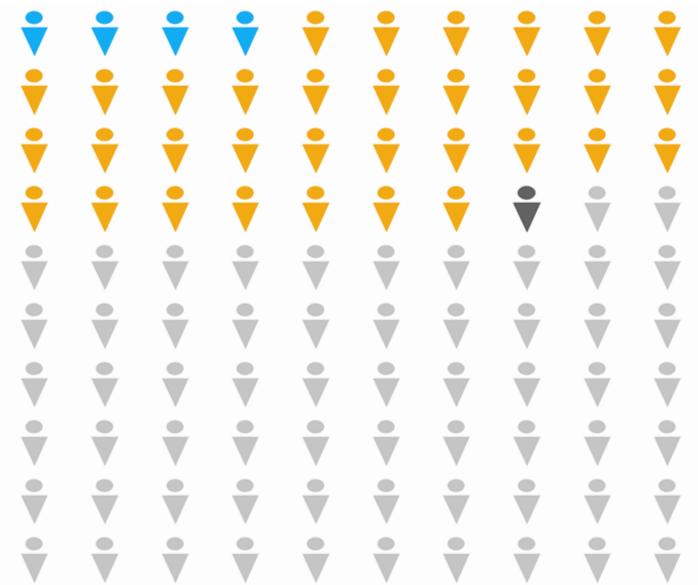

Approximately 33% were impacted by delay in parent consent or child availability for evaluation

NYS 2022 SPP 12 Early Childhood Transition

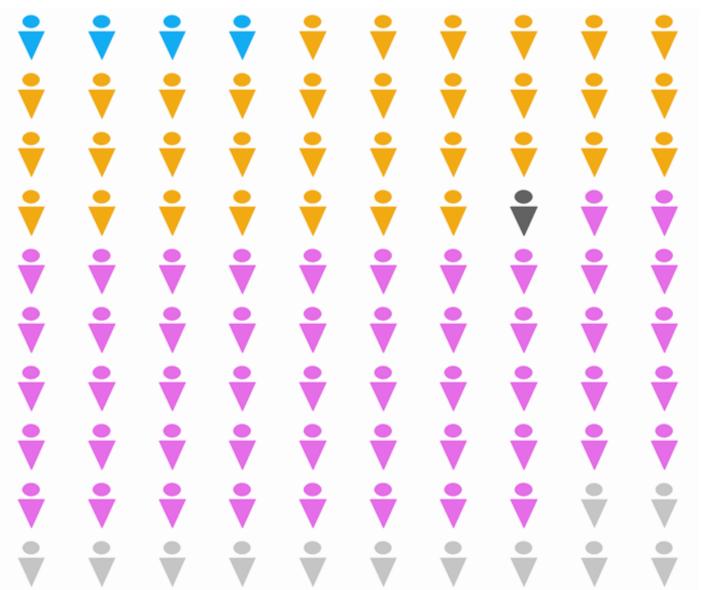

Less than 1% were referred less than 90 days before their third birthday

NYS 2022 SPP 12 Early Childhood Transition

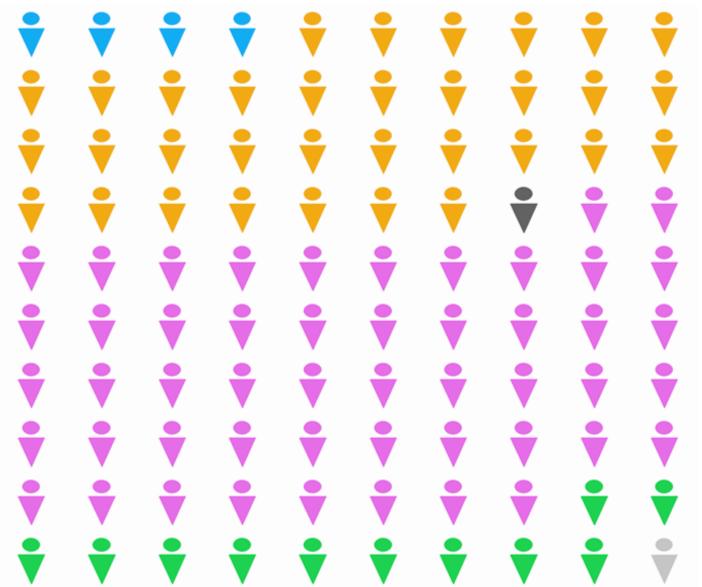

Approximately 50% remained in Early Intervention at parent request

NYS 2022 SPP 12 Early Childhood Transition

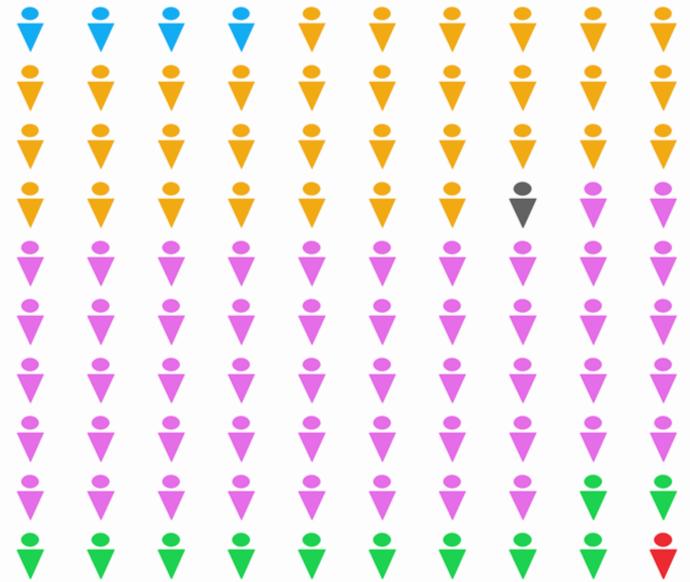

11% were found eligible and had their IEP developed and implemented by the third birthday

NYS 2022 SPP 12 Early Childhood Transition

Less than 1% of the 2,736 cohort did not successfully transition resulting in an overall compliance rate for NYS of 94.12%

Prior Suggestions from Stakeholders to Improve Timely Evaluation and Early Childhood Transition

- 1. Additional funding is needed for preschool evaluations.
- 2. Update guidance on initial evaluation requirements.
- 3. Require low performing school districts to conduct a root cause analysis with the OSE Educational Partnership.
- 4. Greater collaboration is needed to assist in the transition from the EIP to the CPSE.

MARKET RATE

24-OCFS-LCM-22 Child Care Assistance Market Rates 2024

- The purpose of this LCM is to advise local social services districts (LSSDs) of new child care assistance market-related payment rates (market rates) for child care services funded under the New York State Child Care Block Grant (NYSCCBG) and Social Services Block Grant (Title XX), which will take effect October 1, 2024.
- This LCM also advises LSSDs of updates to
 - the Child Care Provider Attestation of Costs Form (OCFS-6060), and
 - the Notice of Change in Provider Payments (OCFS-7078)

August 23, 2024 **Dear Provider Letter** Estimado(a) proveedor(a) de cuidado infantil

MARKET RATE

- The **market rates** are posted on the OCFS website at: https://ocfs.ny.gov/main/policies/external/2024/lcm/24-OCFS-LCM-22-Att-A-CCA-Market-Rates-2024.pdf
- Market rates have been set at no less than the 80th percentile of the prices reported by providers on the most recent market rate survey. In some instances, the market rates were set above the 80th percentile to provide a minimum 5% increase from the 2022 market rates to allow providers to better meet health, safety, quality and staffing requirements for high quality child care.
- Change in the market rate groupings fewer groups (from 5 to 4)

OCFS Updates

- Narrow Cost Analysis (NCA)- CCDF recipients are required to assess the cost of providing child care and to assess the gap between providers' cost of care and child care assistance payment rates.
- OCFS considered two cost modeling options for its NCA:
 - Provider Cost of Quality Calculator (PCQC) using public data sources and some data collected on the MRS
 - Prenatal to Five Fiscal Strategies' (P5) <u>50-State Child Care Cost Model</u>
- Results:
 - In center-based care the gap between the estimated cost and the market rates is greatest for infants and progressively smaller for each age group, such that the market rates are nearly the same as, or greater than, the estimated cost of providing care for preschoolers, and market rates are greater than the cost of providing care for school age children.
 - For Group Family Day Care providers, the 2024 market rates exceed all cost estimates for all age
 groups in all regions.

OCFS Updates

Results:

- For Family Day Care providers, the 2024 market rates exceed cost estimates for infants and school-age children in all regions and at both baseline and higher quality (except for infants, county group 1, MR is 97%). The toddler and preschool market rates for FDC providers range from 81-102% of cost estimates.
- Comparison of the estimated cost of care to the 2024 market rates are in the MRS report for each county group. The next two slides show the data for county group 2 (Albany, Columbia, Dutchess, Erie, Monroe, Onondaga, Ontario, Orange, Rensselaer, Saratoga, Schenectady, Tompkins, Ulster, and Warren counties).

OCFS Impact Project

Goals of the Impact Project

 Create a statewide definition of quality child care to inform programs and services funded by the New York Office of Children and Family Services (OCFS).

• Do this work in a transparent and inclusive manner that involves as many internal and external partners as possible.

Trajectory of the Project

Internal Survey of **Past** Research stakeholder Parents and conversations Providers External Prototype **Present** Analyze Data stakeholder Definition conversations External Feedback + Iteration of Definition **Future**

Survey Responses

Parent/Provider Survey Responses

4,967 responses!

Most (>2800) respondents were providers

600+ were parents, and another 600+ were parent-providers

38% from NYC, 92% English-speaking, 50% White, 25% Latino, 91% female, 60% of families never participated in CCAP

Next Steps

- Internal conversations about how to shape our definition of quality
- Ongoing conversations with stakeholders to maintain a transparent and inclusive process
- Potential for more data collection, focus groups, comments
- Pilot version of the definition
